ITS – PROJEKT 2

HRUŠKA JOZEF (XHRUSK25)

## Zmeny v implementovaných testoch

V niektorých testoch nastali tieto zmeny:

File: Catalog.feature

Background:

Given an e-shop is selling the iPhone product

+ And the user is signed in

- Pridaný proces prihlásenia do administrácie

Scenario: Filter products by a product name

Given a web browser is on the product catalog page

And the phrase "iphone" is entered in product name input

When the user clicks on the "Filter" button

Then the following product is shown:

| iPhone |

- Pridaná akcia odoslania formulára pre filter

File: Edit.feature

Scenario: Product name change

Given the "General" tab is selected in tab menu

And the user adds "42" to the "Product name" input

When the user clicks on the "Save" button

Then product edit page is reloaded

And the "Product name" value is "iMac42"

- Zmenená funkčnosť. Miesto nahradenia číslom 42 je číslo 42 len pridané k pôvodnému názvu.

Scenario: Remove a product image

Given the "Image" tab is selected in tab menu

And products has at least one image

When the user clicks on the remove icon in the last table column

Then image disappears from the list

And the image is no longer assigned the product

- Odstránená kontrola, či je obrázok priradený ku produktu.

## Neimplementované testy z pôvodného návrhu

Testy neimplementované z dôvodu obtiažnosti(nemožnosti) riešenia.

Scenario: Application of a bold formatting for the product description

Given the "General" tab is selected in tab menu

And the user has selected text in the product description textarea

When the user clicks on the "Bold" button

Then a bold formatting is applied on the selected text

- Problém pri zvýraznení textu a následnej kontroly jeho vlastností.
